## MORNING NUTRITION LAUNCH IN KAGAZNAGAR MANDAL, KUMURAM BHEEM ASIFABAD DISTRICT, TELANGANA

7TH JANUARY 2023

Visit our Website: <https://annapoorna.org.in>

Read more at: <https://annapoorna.org.in/morning-nutrition-launch-in-kagaznagar-mandal-kumuram-bheem-asifabad-district-telangana/>

Morning Nutrition was launched by Sri Sathya Sai Annapoorna Trust on 7th January 2023 at ZPHS Buruguda in Kumuram Bheem Asifabad District, and at ZPSS Bhatpally in Kagaznagar Mandal. A total of 42,384 school-going children across 720 schools will receive Ragi Cereal Health Drink.

The launch event was held in the presence of various government officials and school staff, along with Annapoorna Trust volunteers. At the event in Buruguda, the Chief Guests were Sri Rahul Raj – IAS, Collector, and Sri Ashok – DEO along with the Head Master of the School, Sri Udaybabu. At the Bhatpally launch event, Sri Koneru Konappa – MLA, Sirpur Constituency, Telangana Legislative Assembly, Sri Ashok Gupta – DEO, and Sri Bikshapathi – MEO, were the Chief Guests. The Headmaster, Sri Tuduru Nageshwar was also present. From Annapoorna Trust, Sri Anand Kumar Kadali – Trustee and Executive Secretary, Sri Srikanth Vooturi – Regional Manager of Telangana, along with Sri Battu Mallesham, Sri Laxman,

and Sri Murali were present.

At ZPHS Buruguda in Kumuram Bheem Asifabad district, Sri Rahul Raj – Collector, in his address to the gathering, appreciated the Trust for the wonderful service rendered to the children. He said this service gives two benefits. Firstly, it helps in the eradication of malnutrition in poor children in these tribal areas, and secondly, the children usually travel long distances to school and while parents are unable to feed them in the morning, this service helps them attend classes with filled stomachs and no child will remain in school hungry! The collector announced Rs. 300 per month to the cooking agency of each school, much to the delight of all. On request by the collector to feed the Class 10 students in the evening as well, for additional classes, Sri Anand Kumar Kadali – Trustee and Executive Secretary of Annapoorna Trust announced that the Trust will provide additional provisions to them.

In the second launch event at ZPSS Bhatpally, Kagaznagar Mandal, Sri Konappa – MLA, thanked Sri Anand Kumar Kadali, in his speech, for approving his request immediately to provide nutrition to the much needed remotely located tribal district of Asifabad. He further announced steel glasses will be distributed free of cost to the children. Sri Anand Kumar Kadali appreciated the efforts of the MLA to serve the needy people of the district in all aspects, and for establishing a ‘food center’ to provide lunch to the needy people of the town and to Intermediate Govt. college students who don’t get mid-day meals.

It is a known fact that a good nutrition diet is essential for a healthy mind and body. India is ranked bottom on the Global Hunger Index, 2022. It still has one of the worst rates of child malnutrition in the world despite state Governments introducing various schemes such as mid-day meal programmes. To save our children from stunting and chronic malnutrition, especially in the rural and underprivileged centres, Sri Sathya Sai Annapoorna Trust provides free morning nutritious meal to the school-going children with a vision aptly resonated by ‘Let no child go to school hungry, ever!’.

In the states of Andhra Pradesh, Telangana, and Tamil Nadu, “Ragi Cereals Health drink” is provided to government school-going children. It contains significant amounts of vitamin C and E. It is also high in B complex vitamins thiamine, riboflavin, niacin, folic acid, calcium, magnesium, iron, and phosphorus. Easy to prepare and tasty to drink, this health mix has received positive feedback

from teachers, cooks, and children. It is considered one of the best foods for growing children.

Our volunteers are striving to achieve good health and overall well-being of the children. Their well-being will help in the development of the country as a whole.

## INAUGURATION OF STATE-OF-THE-ART SAISURE NUTRACEUTICAL FACILITY BY SADGURU SRI MADHUSUDAN SAI

14TH JANUARY 2023

The formal Inauguration of State of the art “SaiSure Nutraceutical Facility” by Sadguru Sri Madhusudan Sai was held on 14th January 2023.

Visit our Website: <https://annapoorna.org.in>

Read more at: <https://annapoorna.org.in/inauguration-of-state-of-the-art-saisure-nutraceutical-facility-by-sadguru-sri-madhusudan-sai-14th-jan-2023/>

This 6-floor state-of-the-art nutraceutical facility at its full capacity can produce 750 Tons per month addressing the micro nutrition needs of close to 5 million beneficiaries comprising govt. school children, toddlers, pregnant women, and lactating mothers.

**SaiSure Micronutrient Health Mix: Addresses ‘HIDDEN HUNGER’**  
SaiSure is a unique and much-needed micronutrient supplement programme for pregnant women, toddlers and children offered free of cost. The composition is conceived, keeping the demands of vital nutrients for normal progeny and potential future adult healthy life. It meets the protein, vitamin, and mineral requirements and is designed to meet 50% of the recommended daily allowance (RDA) of most of the Micro-Nutrients. It is a wholesome, free-of-cost, simple, scalable solution to bridge the nutrition gaps and meet the needs of combating malnutrition.

Over 1.2 million school children attending typically rural government schools across 23 states and 4 UTs of India covering 15000+ government schools are served this “SaiSure for children”. It is one of India’s most significant interventions in child nutrition security and “hidden hunger” management. Over 5000 pregnant women are provided “SaiSure for pregnant women” to ensure a healthy delivery. “SaiSure for Toddlers” will address the nutrition needs of babies between 6 months to 2 years.

**Need of the hour: Setting up of “SaiSure Nutraceutical Facility” in Rural areas.** The urban-rural divide can affect access to nutraceutical facilities for growing children, adolescents, elders, pregnant women, and lactating mothers. There are typically more healthcare resources including nutraceutical facilities in urban

---

areas. This can make it easier for urban children to receive the specialized care they need for nutritional deficiencies or disorders. However, in rural areas, access to healthcare resources and facilities may be more limited. This can make it more difficult for rural children to receive the same level of care as their urban counterparts.

Also, rural areas often have a higher prevalence of poverty, which can lead to a higher incidence of malnutrition and other nutritional issues. Nutritional facilities in rural areas may have fewer resources and staff to meet the needs of the population. Additionally, there may be limited transportation options and a lack of accessibility to these facilities, making it difficult for families to access care, especially for nutraceutical facilities.

Overall, the urban-rural divide can create disparities in access to nutraceutical facilities for children, with rural children facing more challenges in receiving the specialized care they need for their nutritional needs. Setting up the “SaiSure Nutraceutical Facility” at Chikkaballapur would help us to reduce the urban-rural divide. The facility is planned to distribute health supplements by collaborating with various NGOs and government organisations and making them available for retail purchase in rural areas.

Building a nation through nutrition requires a multi-sectoral approach that focuses on individual and community-level initiatives and policies to ensure that all individuals have access to nutritious food options and can make healthy food choices.

SaiSure Morning Nutrition programme has catalysed improvements in enrolments, punctuality, mental focus, academic performance, and health profile of the children. This health mix is scientifically designed to provide vital nutrients and micronutrients acting as a wholesome meal. This Morning Nutrition programme will deliver an overall positive impact on the Health and Academics of these students.

The Senior Leadership Team got an opportunity to meet our Founder, Sadguru Sri Madhusudan Sai who spearheads the global mission of love and service through Free Nutrition, Education, and Health

programmes for the Rural sections of society. Sadguru Sri Madhusudan Sai elaborated on various facets of serving society through CSR (Corporate Social Responsibility), ESR (Employee Social Responsibility), and ISR (Individual Social Responsibility).

As part of the campus tour, the Team visited our Hospitals, Educational Blocks, and SaiSure Nutraceutical Manufacturing Unit, and appreciated the great services being rendered in the verticals of the Nutrition, Education, and Health sector. They also visited Annapoorna Trust Morning Nutrition beneficiary government school and spent quality time with children.

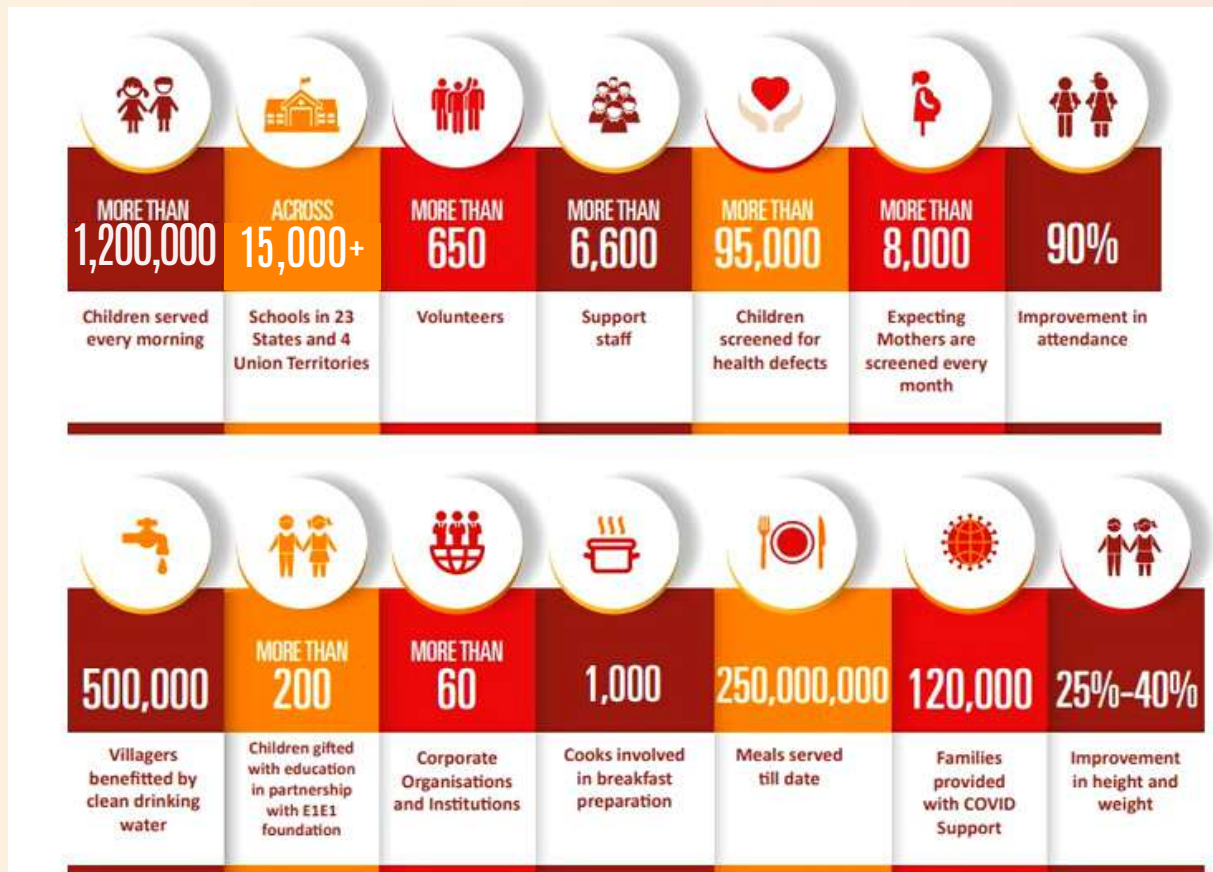

Our humble thanks to dear Sri. Satya Lanka and Dr. Kamal Peter for all their efforts toward this noble cause of Building Nation through Nutrition.
