Their only concern is the next meal and nothing more. They are in extreme poverty. Hunger and illness hover over every family. Sabar families eat rice when they can afford it; otherwise, they survive on forest products. Many of them, by their own admission, drink a good deal of handia, perhaps it is the only way to feel on top from time to time, in these dire circumstances. Their only possession are a few pots and some sort of thin bedding. Most of the Sabar in this area survive by selling wood, hacked from the surrounding forests.

Sabar Tola, Lupungdih is 20 kms from Tata Nagar Railway station in East Singhbhum district of Jharkhand near Jamshedpur, with a total population of around 150 people from 36 households. Moved by this dire situation of this community, Team Annapoorna decided to distribute the following essentials to these households.

Grocery Kits: 5 kgs Atta, 1 Kg, Masoor Dal, 700 gm, Mustard oil, 250 gms Salt, 1 Biscuit Packet, 2 Washing soaps and 2 Bathing soaps.
