We receive fortified ragi from Volvo Company and the Annapoorna Trust. It is prepared by boiling it with the milk provided by the government and is served to the children five days a week. The children consume it happily, and as a result, they are more energetic and show greater enthusiasm in their studies.

This program is truly commendable, as it not only improves the nutritional status of the children but also helps eliminate morning hunger when they arrive at school.

We sincerely request your organisation to continue this program, as it is especially beneficial for children in rural areas. We express our heartfelt gratitude to Volvo Company and the Annapoorna Trust for implementing this valuable initiative.

All the children in our school are receiving fortified ragi prepared with government-provided milk, and they are enjoying it very much. This initiative is effectively addressing malnutrition, and we are already witnessing positive outcomes such as noticeable physical growth and cognitive development among the children.

We therefore humbly request that this program be continued, so that the children may continue to benefit from this valuable initiative. We sincerely thank Volvo Company and Annapoorna Trust for this program.
